

# Annual Education Report

2009-2010

## Greenwood Elementary School

3501 Moreland Avenue

Kalamazoo, MI 49001

Phone Number: 269.337.0560 . Fax Number: 269.337.1622

[glendeningsl@kalamazoo.k12.mi.us](mailto:glendeningsl@kalamazoo.k12.mi.us)

We believe that all children will learn. We will educate all of our students to achieve national and state standards while providing appropriate challenges, exciting experiences and learning extension that will motivate our students to be self-directed, life-long learners. Our school family will respect human diversity and foster responsible community members.

Superintendent: Dr. Michael F. Rice

Principal: Ms. Sara Glendening

### 2009-10 Board of Education

President: Ms. Mollie Peterson

Vice-President: Ms. Carol McGlinn

Secretary: Ms. Marcy L. Peake

Treasurer: Mr. Ervin Armstrong

Trustee: Ms. Patti Sholler-Barber

Trustee: Mr. Eric Breisach

Trustee: Ms. Liz Henderson

**Kalamazoo Public Schools**

Every child, every opportunity, every time!

## School Annual Education Report (AER) Cover Letter

August, 2010

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2009-2010 educational progress for the Greenwood Elementary School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, Adequate Yearly Progress (AYP) and teacher quality. If you have any questions about the AER, please contact Mrs. Sara Glendening for assistance.

The AER is available for you to review electronically by visiting the following web site <http://www.kalamazoopublicschools.com/2009-2010-kalamazoo-public-schools-building-annual-reports> or you may review a copy from the office at your child's school.

For 2009-2010, Greenwood Elementary made Adequate Yearly Progress (AYP) in English language arts and mathematics. While we are pleased to have reached this important goal, we are continuously working to improve. We appreciate the continued support of parents, staff and our community in this effort.

State law requires that we also report additional information.

1. PROCESS FOR ASSIGNING PUPILS TO THE SCHOOL
2. THE STATUS OF THE 3-5 YEAR SCHOOL IMPROVEMENT PLAN
3. A BRIEF DESCRIPTION OF EACH SPECIALIZED SCHOOL
4. IDENTIFY HOW TO ACCESS A COPY OF THE CORE CURRICULUM, A DESCRIPTION OF ITS IMPLEMENTATION AND AN EXPLANATION OF THE VARIANCES FROM THE STATE'S MODEL
5. THE AGGREGATE STUDENT ACHIEVEMENT RESULTS FOR ANY LOCAL COMPETENCY TESTS OR NATIONALLY NORMED ACHIEVEMENT TESTS
6. IDENTIFY THE NUMBER AND PERCENT OF STUDENTS REPRESENTED BY PARENTS AT PARENT-TEACHER CONFERENCES

Sincerely,

Sara Glendening  
Principal

# Overview of School

## Accreditation Status & Education YES! Grades

The chart below identifies our buildings accreditation status and grades as determined by Education YES!

Education Yes! Report Card	2009-2010		2008 – 2009	
	Score	Grade	Score	Grade
Mathematics	86	B	94.8	A
English Language Arts	N/A	N/A	89.2	B
Reading	65.1	D	N/A	N/A
Achievement Subtotal	75.6	C	92	A
Indicators of School Performance	100	A	100	A
Preliminary	84	B	95	A
AYP Status	Met AYP: Y		Met AYP: Y	
Composite Grade	B		A	
Michigan Accreditation	Accredited		Accredited	

\* Schools continue to be accredited unless they receive a D Alert grade, at which point they become designated as unaccredited for the state of Michigan

## 2009–2010 Highlights

- Met State of Michigan Adequate Yearly Progress.
- Implementation of Kid’s Hope Mentoring Program.
- Community involvement through local organizations—Western Michigan University, Kalamazoo Public Library, SLD Learning Center.
- 100% Parent/Teacher Conferences for Spring.
- Stable enrollment
- Technology updated and staff trained on the use of instructional technology.
- New computer lab.
- Staff uses a collaborative model to increase student achievement and create a positive learning environment.
- Staff trained and implemented English Language Arts and Mathematics curriculum guides.
- Successful family curriculum nights in the areas of Literacy, Math, and Writing.

## 2009–2010 Highlights (cont.)

- High average daily attendance.
- Strong family involvement.

## Parent Involvement

Parent-Teacher Conference Attendance Rates				
School	Fall 2009		Spring 2010	
	#	%	#	%
GREENWOOD	139	98	183	98

## Parent Involvement Policy

### **District Policy**

*The District will consistently work, in a variety of ways, to strengthen meaningful family participation in the education of their children.*

### **Greenwood’s Parent Involvement**

Parents are encouraged to participate in the Parents Association, the school improvement team and other school enrichment activities. Parent involvement is assessed through the yearly parent survey.

## School Assignment Process

Students are assigned to schools within the district based on geographic boundaries that are published on the district website- <http://www.kalamazoopublicschools.com/district-attendance-areas>  
Students who wish to attend one of our specialized magnet schools must submit an application to enter the magnet lottery.

## School Improvement Plan

<b>Reading</b>	
Goal:	All children will be proficient readers, as indicated by State achievement targets.
Data to support goal selection:	52% of 1st and 2nd grade children receiving free and reduced lunch were at grade level on the IOWA Test of Basic Skills, 50% of 3rd grade children receiving free and reduced lunch were at grade level on the IOWA Test of Basic Skills.
Planned Strategies and Interventions:	All children not at grade level will receive additional interventions. Staff will be involved in staff development with emphasis on differentiated instruction. Hourly classroom tutorial support. Teachers will use the Benchmark Assessment System, and the Fountas and Pinnell intervention
Accomplishments:	A successful literacy night was held, and individual meetings were held beyond parent/teacher conferences to discuss reading levels of children below grade level. Strategies on how to help their children were also discussed. Implementation of Kid's Hope Mentoring Program.
Implications for next year:	We will continue with our reading goal. We will consistently and constantly monitor data which will help us make informed decisions about instruction. We will continue to inform parents of those children below grade level. We will continue to hold individual parent meetings.

<b>Writing</b>	
Goal:	All children will meet or exceed State achievement Writing targets
Data to support goal selection:	Based on a review of student achievement data sources (MEAP, and grade level writing prompts), only 67% of economically disadvantaged students were proficient on the MEAP writing assessment.
Planned Strategies and Interventions:	Continue review of the writing process, 90/30 minute reading/writing block, Family Writing Night, extended day kindergarten, positive behavior support, hourly classroom tutorial support, implementation of Kid's Hope Mentoring Program.
Accomplishments:	Successful Family Writing Night, extended day kindergarten, uninterrupted 90/30 minute reading writing block, implementation of English language Arts curriculum guides.
Implications for next year:	We will continue our writing goal. We will continue hosting a Family Writing Night and the 30 minute writing block.

<b>Math</b>	
Goal:	All children will meet or exceed State achievement Mathematics targets by 2014
Data to support goal selection:	60% of children in 1st grade receiving free and reduced lunch were at grade level on the Iowa, 21% of children at 2nd grade receiving free and reduced lunch were at grade level on the Iowa and 16% of 3rd grade students receiving free and reduced lunch were at grade level.
Planned Strategies and Interventions:	Review of board approved mathematics program and mathematics curriculum guide. Family Math Night, extended day kindergarten, ongoing professional development/book study Classroom Strategies That Work, hourly classroom tutorial support, positive behavior support.
Accomplishments:	Successful Family Math Night, Implementation of Kids Hope Mentoring Program, continuation of extended day kindergarten.
Implications for next year:	We will continue the Math goal. We will continuously monitor data. We will hold a Family Math night. Continued use of Math curriculum guides.

## School Improvement Plan

Science	
Goal:	All children will meet or exceed State achievement Science targets by 2014
Data to support goal selection:	Based on a review of student achievement sources (MEAP Science data from feeder school data, Performance series data), only 73% of students scored proficient on the Performance Series test and 80% are scoring proficient on the MEAP Science Test as compared to a goal of 100%
Planned Strategies and Interventions:	Content vocabulary across the curriculum professional development, continued implementation of science kit curriculum, extended day kindergarten and MiBLSI/ Positive Behavior Support
Accomplishments:	Implementation of the Kid's Hope Mentoring Program, MiBLSI/Positive Behavior Support
Implications for next year:	We will continue the Science goal. We will continuously monitor data. We will continue to use the Battle Creek Math/Science Center Curriculum kits that are aligned with State standards.

Every child, every opportunity, every time!

## School Assessment Data

### Local and Norm Referenced Achievement Data

At Greenwood Elementary School we administer a variety of assessments to help determine student needs and progress. Students in grades 1 through 3 take the Iowa Test of Basic Skills to determine how students are progressing compared to a national peer group. Students in grade 3 also take Performance Series. Performance Series is a computer based assessment that gives teachers instant feedback on how well students are performing compared to their national peers and on the Michigan GLCE's.

### **Nationally Normed Achievement Tests – Iowa Test of Basic Skills (ITBS)**

ITBS				
Sub-group	Reading GLE		Math GLE	
	08-09	09-10	08-09	09-10
<b>First Grade</b>				
All	2.1	2.4	1.6	2.1
African American	2.0	N/A	1.4	N/A
Hispanic	N/A	N/A	N/A	N/A
White	2.1	N/A	1.6	N/A

Every child, every opportunity, every time!

# Core Curriculum

The purpose of the Kalamazoo Public Schools curriculum is to ensure that all students learn the same essential content based on the Michigan Department of Education (MDE) standards and expectations. The curriculum ensures that students will be able to access, evaluate, and use information in a technology-dependent world. The curriculum provides optimal learning opportunities for all students and is designed to ensure post-secondary success in institutions of higher education and the workplace.

## **The Process of Curriculum Development and Alignment**

As of 2007-2008, curriculum leaders, in conjunction with teachers, have integrated three major approaches to curriculum work in the development model. This model recognizes that creating curriculum guides alone does not enhance student achievement; it is merely the first step. Curriculum work must funnel down to classroom instruction, assessment, and instructional improvement based on data in order to maximize student achievement. As such, the model is focused on the work of Ainsworth, Marzano, Wiggins, and Tomlinson specifically as related to using standards for curriculum development, unit design, lesson design, instruction, differentiated instruction, and assessment (formative and summative). Our current process is indicated below:

- Unpack and prioritize Michigan Department of Education's grade level content standards (i.e., GLCEs and HSCEs).
- Unpack expectations using Ainsworth model of identifying verbs, nouns, concepts, skills, big ideas, essential questions, identify level of Bloom's Taxonomy for each expectation, create assessment items aligned to each prioritized standard
- Prioritize expectations
- Group expectations to create measurement topics
- Create end of course assessments
- Create assessment map
- Chunk
- Create course map and common formative assessments\*
- Train team in data analysis
- Create units of instruction using the Understanding by Design (UbD) model
- Implement, assess, reflect, modify for improvement

\*Common formative assessments are defined as periodic or interim assessments, collaboratively designed by grade-level or course teams of teachers and administered to all students in a grade level or course several times during the quarter, semester, trimester, or entire school year (Ainsworth, 2006).

The process of revising curriculum guides in the district involves teachers and curriculum leaders collaboratively conducting gap analyses using the following approach, in part, outlined by MDE:

- Standards and expectations published by MDE are identified and prioritized.
- Teams review existing documents to 1) determine whether GLCEs or HSCEs are taught in the curriculum and 2) identify the level of proficiency outcomes should be met.
- Pacing guides are reviewed to determine alignment along with corresponding resources.

Guides requiring revisions adhere to the cycle noted under *Process for Curriculum Development*.

All curriculum guides in the district are based on state standards and expectations. Serving as *living documents*, curriculum guides are reviewed annually to ensure alignment to state expectations and to incorporate needed revisions based on student data, research on best practices, and feedback from all stakeholders. In an effort to increase student achievement and effectively implement the curriculum, teachers across content areas engage in ongoing professional development. The sessions are designed to assist teachers in developing their capacity to a) further study and develop strategies to implement the GLCEs and HSCEs, b) use data to drive instruction, and c) identify areas of interest to strengthen classroom instruction. The district offers a variety of professional growth opportunities: differentiated professional development that allows teachers to develop in areas of interest; grade level/department sessions; school and district-wide sessions based on curriculum, data, and school improvement plans; training for group facilitators and content leaders representing their respective buildings; and voluntary after school sessions to further support instruction.

Several data warehousing systems are accessed to plan and evaluate professional development (building and district level), evaluate the impact of curriculum and instruction on student achievement, and support the development of school improvement plans. At the building level, staff members further align classroom instruction based on results from item analyses, disaggregated data based on subgroups, and noted trends over a period of time. At the district level, both aggregate and disaggregated data are used to establish academic goals, identify programming needs, and plan meaningful and relevant professional development.

## **The Foundation of Core Courses**

All core courses (English Language Arts, mathematics, science, and social studies) are based on GLCEs or HSCEs. Students have access to courses across levels with opportunities for differentiated instruction. Resources are aligned to curriculum guides based on state expectations and offer activities to meet diverse learning styles and needs. Classes plan for small and whole group differentiated instruction to ensure that all students have equal and equitable access to appropriate core outcomes. Student data (formative and context-bound) is also used to guide decision making and select appropriate resources. Special education teachers receive core curriculum guides and participate in training to interpret expectations for areas under study. Special education teachers also have the opportunity to work with building teams in identifying best practices for reaching struggling learners. Professional development opportunities with corresponding resources are offered to all teachers in the district.

### **Teaching to Expectations (Units of Study)**

Curriculum documents are designed to teach the Michigan Grade Level Content Expectations (GLCEs) to all students. The units of study are divided into three stages based on the genres to be explicitly taught at each grade level. **Stage 1** of each unit identifies the desired results for all students in a specific grade level. Stage 1 specifies what each student should know, understand, and be able to do at the end of the unit. The "desired results" designates the content worthy of understanding, what enduring understandings are desired, and what essential questions will be explored. Stage 1 calls for clarity about the priorities of the unit. **Stage 2** of each unit determines the acceptable evidence from the desired understandings and content of the unit of study. Stage 2 provides diagnostic, formative, and summative assessment to allow educators to know when students have achieved the desired results of the unit. This stage describes the acceptable evidence of a student's understanding and proficiency. The assessment evidence reflects the desired results of Stage 1. **Stage 3** of each unit is the instructional plan. Stage 3 suggests the activities, sequence, and resources which are best suited to accomplish the goals established in Stage 1. This stage focuses on the knowledge and skills students need to perform effectively to achieve the desired results. The goal is to make teaching engaging and effective for learners, while always keeping the end in mind.

### **English Language Arts**

The kindergarten through third grade curriculum writing teams drafted reading guides winter 2009. All elementary teachers received draft guides and professional development fall 2009 and 2010. Full implementation of guides in classrooms is scheduled fall 2010.

In the area of writing at the elementary level, teams will assemble during the 2009-2010 school year to review resources. The outcome of the review will drive development of K-5 writing curriculum guides during 2010-2011 with full implementation and professional development in 2011-2012. Serving as living documents, writing teams will review guides yearly to a) incorporate diagnostic assessments, b) adjust expectations for learning experiences based on data, c) include scaffolding and reference materials, and d) strengthen units of study. At the secondary level, teams assembled fall 2009 to review resources and write guides for targeted courses. English curriculum guides drafted in 2007-2008 were scheduled for full implementation during 2009-2010 or 2010-2011. Professional development activities occurred fall 2009 and will in fall 2010. Plans to conduct resources audits for specific elective English courses will occur during 2011-2012 with possible adoption recommendations and curriculum development work in 2012-2013.

### **Math**

A representative group of elementary teachers assembled in fall 2008 to explore options for new resources aligned with state expectations and based on best practices for grades K-5. Following the scheduled resource pilot in January 2009, mathematics leadership team members will identify and recommended a new series in March 2009. Professional development activities were scheduled for late summer and fall 2009 that provided assistance to classroom teachers with using guides and new textbook series to teach grade-level content expectations. During 2008-2010, the curriculum writing team, along with classroom teachers, convened periodically to report on the quality of guides and offered recommendations for improvement. The implementation began in fall 2009 and will be provided with ongoing opportunities for improving guide components and professional development.

With respect to middle school mathematics, the leadership team will review resources during 2009-2010 to investigate quality, relevance in meeting state expectations, and unification of format and content with the K-5 program. Based on findings, the adoption and curriculum development process may occur in 2010-2011 with scheduled professional development in fall 2011. In the meantime, to focus instruction on grade-level content expectations and support instructional practices, mathematics writing teams will assemble in winter 2009 to strengthen currently used guides. In winter 2009, high school curriculum writing teams collaborated with teachers to complete guides drafted during 2007-2008. In fall 2009, teachers received drafts guides and are expected to fully implement the program during 2009-2010. Plans to conduct resource audits for specific elective courses will occur 2010-2011. Revisions in state course expectations will direct future curriculum writing efforts during 2010-2011 and 2011-2012.

### **Science**

During the 2007-2008, the district adopted a K-6 science program developed by Battle Creek Area Mathematics and Science Center (BCAMSC) in Battle Creek, Michigan. BCAMSC curriculum guides contain instructional units aligned with grade level content expectations for life, earth, and physical science strands. On a yearly basis, BCAMSC provides teachers with updated unit activities and curriculum guides (components), includes resources to address realignment needs indicated by MDE, and offers professional development. Over the past two years, the district has phased in units by specific grade levels. In accordance with the final phase of implementation plan, 3rd through 6th grade teacher received the newly realigned science units with curriculum guides and training in fall 2009. Consistent with the elementary direction and based on the results of an resource audit conducted in 2007, the science leadership teams will consider piloting BCAMSC units along with other resource options for 7th and 8th grades in spring 2010. Upon approval, the leadership team will deliver professional development sessions during 2010-2011. In the meantime, the 7th grade curriculum writing team assembled in winter 2009 to draft pacing guides and identify supplementary materials for use in fall 2009. Similarly, the 8th grade curriculum writing team assembled in winter 2009 to continue writing pacing guides previously drafted in 2007-2008. Seventh and eighth grade teachers received draft pacing guides in fall 2009 with supporting professional development. Full implementation of the 7th and 8th grade science curriculum guides will occur 2010-2011.

In 2010-2011, curriculum writing teams will implement secondary science guides drafted during 2008-2009. Curriculum teams worked during the summer in writing these guides to provide teachers with drafts and professional development in the fall 2009. Teachers will fully implement revised guides in 2011 with opportunities for improving guide components and professional development. Curriculum writing teams will assemble during 2009-2010 and 2010-2011 to investigate alignment between high school content expectations and currently used textbooks in honors and elective courses. Based on findings, recommendations for adoptions and the subsequent revision of curriculum guides will occur in winter 2010 with professional development during 2010-2011.

## **Social Studies**

To address MDE revisions at the elementary level curriculum writing teams conducted K-5 resource audits to ensure alignment to the grade level content expectations. Teachers will receive draft guides in fall 2010 with supporting professional development. Full implementation of guides is expected fall 2011. At the middle school level, 6th grade recently underwent a textbook adoption and as a result, curriculum writing teams assembled draft curriculum guides that provide direction in implementing the newly adopted series in the fall of 2009. Teachers engaged in professional development in fall 2009 and will continue the work during the year. Full implementation of the revised guide is scheduled fall 2010.

During 2009-10, the middle school social studies curriculum writing team will review grade level content expectations and resources to determine cohesiveness of the 6th and 7th grade courses. Recommendations to shift or redistribute partial content in 7th grade to 6th may occur based on breadth of current MDE social studies topics. This decision will assist with ensuring vertical articulation between courses. Based on resource needs, the curriculum writing team may recommend an adoption during 2009-2010. The 7th grade curriculum writing team will continue drafting curriculum pacing guides during 2009-2010 with full implementation in 2011. In 8th grade, a textbook adoption committee convened in 2007-2008 to conduct a resource audit and pilot selected resources. As a result of the pilot, committee members recommended a new textbook series for adoption in winter 2010. In the meantime, the curriculum writing team will complete 8th grade previously drafted in 2008-2009. Teachers received draft guides in fall 2009 with scheduled professional development. Full implementation of the 8th grade guides with new resources is scheduled 2011.

High school social studies curriculum guides drafted in 2007-2008 are scheduled for full implementation in 2010-2011. To meet timelines, curriculum teams have assembled this year to continue writing guides. Several of these guides will undergo major revisions due to new MDE high school content expectations. Teachers received draft guides in fall 2009 along with professional development. With respect to elective courses, curriculum writing teams will conduct resource audits during 2010-2011 and 2011-2012. Curriculum writing teams may offer recommendations for adoptions based on findings. Writing teams will complete related work with developing curriculum guides between 2011-2012 and 2012-2013.

## **Variations**

All schools use Kalamazoo Public School's curriculum guides that are aligned to MDE expectations and standards. Magnet schools and schools with special themes integrate their specialized areas into the KPS curriculum.

**Kalamazoo Public Schools  
Greenwood Elementary  
2009-2010**

**STUDENT/PARENT/CONTRACT Third grade**

**STUDENT AGREEMENT**

It is important that I work to the best of my ability. Therefore, I shall strive to do the following:

- Play cooperatively with other children.
  - Recognize and accept differences
  - Ask for help
  - Respect myself and others
  - Demonstrate self-control
  - Can distinguish right from wrong
  - Model positive behaviors
  - Use personal experiences, asks questions, and identifies key ideas and details
  - Show empathy/care for others
  - Demonstrate self-knowledge and confidence
  - Understand why school is important
  - Manage emotions and behavior
  - Recognize talents and skills
  - Demonstrate positive conflict resolution/peer mediation
  - Recognize and respect the feelings of others
  - Understand interdependence
- Signature \_\_\_\_\_

**TEACHER AGREEMENT**

It is important that students achieve. Therefore, I shall strive to do the following:

- Believe that ALL children can learn and assist all students in meeting or exceeding grade level expectations.
- Instruct, model, and reinforce daily procedures, routines, and socially accepted manners.
- Reinforce positive student behaviors.
- Communicate effectively with students, parents, colleagues, and the community by creating a community of learners and collaborating with others.
- Keep communication open with parents and developing partnerships.
- Be culturally aware and use that knowledge in instructional planning.
- Base instructional and behavioral decisions on data.
- Promote positive relationships with others
- Affirm and encourage parental involvement at conferences and school events.
- Communicate with parents/guardians on a regular basis
- Promote a healthy lifestyle through exercise, nutrition, and sleep.
- Greet students in a positive manner daily and use their names.
- Encourage cultural competence and skills.
- Teach and model the acceptance of diversity through similarities and differences between people.
- Begin the day with a calming routine and teach procedures and routines for all activities throughout the day.
- Convey a sense of nurturing and trust to students and parents.
- Teach the acceptance of diversity through similarities and differences between people
- Demonstrate working together for the common good of the classroom.
- Convey a positive outlook for the school year.
- Teach the acceptance of diversity in terms of similarities and differences among people
- Demonstrate working together for the common good of the classroom.

Foster awareness of cultural diversity within the classroom.

Signature \_\_\_\_\_

PARENT/GUARDIAN AGREEMENT

I want \_\_\_\_\_ to achieve. Therefore, I will encourage him/her by doing the following:

- Attend parent-teacher conferences, workshops and school performances.
- Have a quiet space to read and do school work at home.
- Get and use a family library card.
- Expand variety of reading materials and increase reading time to 45 minutes per day.
- Be involved in daily learning at home
- Check bag for homework.
- Limit TV & electronic games.
- Help with homework.
- Call teacher if more help is needed.
- Set routines for meals and regular bedtime.
- Post a written set of family rules.
- Ask my child about the three best things that happened that day.
- Make eye contact and listen.
- Teach my child appropriate ways to interact and respond to authority.
- Teach my child to calmly ask questions when they don't understand something.
- Avoid exposure to violence
- Show my child how to organize his/her backpack
- Talk about being truthful when sharing feelings or daily events.
- Keep my child home from school when he/she is sick (cold, flu, etc.).
- Provide school with correct parental and emergency contact information. Update as needed.
- Encourage child to write short stories, letters, and/or notes to family members and friends.
- Monitor my child's use of electronic games and computers.
- Know my child's friends, activities, and where he/she is.
- Encourage drinking water.
- Be physically active as a family.
- Assure my child regularly attends and arrives at school on time.
- Have a daily routine for homework and play.
- Homework space should be quiet and have basic supplies.

Teach my child not to tease, bully and name call.

Signature \_\_\_\_\_
