

# Annual Education Report

2009–2010

## Hillside Middle School

1941 Alamo Ave.

Kalamazoo, MI 49006

Phone Number: 269.337.0570 Fax Number: 269.337.1618

[fostergp@kalamazoo.k12.mi.us](mailto:fostergp@kalamazoo.k12.mi.us)

The mission of Hillside Middle School, a diverse family of learners, is to ensure that everyone achieves excellence and social responsibility in an ever-changing world through school and community network.

Superintendent: Dr. Michael F. Rice

Principal: Mrs. Gloria P. Foster-Wimbley

### 2009–10 Board of Education

President: Ms. Mollie Peterson

Vice-President: Ms. Carol McGlinn

Secretary: Ms. Marcy L. Peake

Treasurer: Mr. Ervin Armstrong

Trustee: Ms. Patti Sholler-Barber

Trustee: Mr. Eric Breisach

Trustee: Ms. Liz Henderson

**Kalamazoo Public Schools**

Every child, every opportunity, every time!

## School Annual Education Report (AER) Cover Letter

August, 2010

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2009-2010 educational progress for the Hillside Middle School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, Adequate Yearly Progress (AYP) and teacher quality. If you have any questions about the AER, please contact Mrs. Gloria Foster-Wimbley for assistance.

The AER is available for you to review electronically by visiting the following web site <http://www.kalamazoopublicschools.com/2009-2010-kalamazoo-public-schools-building-annual-reports> or you may review a copy from the office at your child's school.

For 2009-2010, Hillside Middle made Adequate Yearly Progress (AYP) in English language arts and mathematics. While we are pleased to have reached this important goal, we are continuously working to improve. We appreciate the continued support of parents, staff and our community in this effort.

State law requires that we also report additional information.

1. PROCESS FOR ASSIGNING PUPILS TO THE SCHOOL
2. THE STATUS OF THE 3-5 YEAR SCHOOL IMPROVEMENT PLAN
3. A BRIEF DESCRIPTION OF EACH SPECIALIZED SCHOOL
4. IDENTIFY HOW TO ACCESS A COPY OF THE CORE CURRICULUM, A DESCRIPTION OF ITS IMPLEMENTATION AND AN EXPLANATION OF THE VARIANCES FROM THE STATE'S MODEL
5. THE AGGREGATE STUDENT ACHIEVEMENT RESULTS FOR ANY LOCAL COMPETENCY TESTS OR NATIONALLY NORMED ACHIEVEMENT TESTS
6. IDENTIFY THE NUMBER AND PERCENT OF STUDENTS REPRESENTED BY PARENTS AT PARENT-TEACHER CONFERENCES

Sincerely,

Gloria Foster-Wimbley

Principal

# Overview of School

## Accreditation Status & Education YES! Grades

The chart below identifies our buildings accreditation status and grades as determined by Education YES!

Education Yes! Report Card	2009 – 2010		2008-2009	
	Score	Grade	Score	Grade
Mathematics	90.8	A	88.7	B
English Language Arts	N/A	N/A	66.1	D
Reading	73.5	C	N/A	N/A
Science	69.5	C	68.6	D
Social Studies	63.2	D	62.3	D
Achievement Subtotal	74.3	C	71.4	C
Indicators of School Performance	100	A	100	A
Preliminary	83	B	81	B
AYP Status	Met AYP? Y		Met AYP? Y	
Composite Grade	B		B	
Michigan Accreditation Status *	Accredited		Accredited	

\*Schools continue to be accredited unless they receive a D Alert grade, at which point they become designated as unaccredited for the state of Michigan

## 2009–2010 Highlights

- **Hillside had two author visits— James Owen in November and Jaime Adoff in March.**
- **Literacy Night 2010— Hillside provided dinner to its students and families in collaboration with PTSO and KCIS. Jaime Adoff was the guest speaker for the event.**
- **All School Read—” Jimi and Me” by Jaime Adoff was a success, all students read the book and received a free copy of the book.**
- **Promise Week— All students participated in our celebration of the Kalamazoo Promise, 6th graders had a field trip to Western Michigan University, 7th graders had a career fair at Hillside, and 8th grade visited K-Central for their high school orientation. All events focused on the importance of doing well in school and being prepared for college.**
- **Our Destination Imagination team qualified for regional, state and Global finals. To advance teams had to place in the top 3. Our team took 2nd place at state finals and then 13th place at the Global finals out of 60 teams!**
- **Two teachers were recognized by KRESA’s Parent Advisory Committee and received an Excellence in Special Education Award.**

## 2009–2010 Highlights (cont.)

- **Held 7th grade Science Fair. Over 170 projects were featured.**
- **One 8th grade student received the McCaslin Scholarship Award for \$1,000.00.**
- **Kalamazoo Community in Schools 21st Century Program started this year and serviced 64% of students eligible.**
- **A grand total of 10, 664 books were read by 6th, 7th and 8th graders. Nine certificates were presented to students who read over 40 books in 6th and 7th grades and 5 certificates were presented to 8th graders who read over 60 books with one student reading 166 books.**

## Parent Involvement

Parent-Teacher Conference Attendance Rates				
School	Fall 2009		Spring 2010	
	#	%	#	%
Hillside	275	51	283	52

## Parent Involvement Policy

### **District Policy**

*The District will consistently work, in a variety of ways, to strengthen meaningful family participation in the education of their children.*

### **Hillside’s Parent Involvement**

Parents are encouraged to participate in the Parents Association, the school improvement team and other school enrichment activities. Parent involvement is assessed through the yearly parent survey.

## School Assignment Process

Students are assigned to schools within the district based on geographic boundaries that are published on the district website- <http://www.kalamazoopublicschools.com/district-attendance-areas>  
Students who wish to attend one of our specialized magnet schools must submit an application to enter the magnet lottery.

## School Improvement Plan

<b>Reading</b>	
Goal:	All students will achieve proficiency on the reading MEAP.
Data to support goal selection:	African American students scored 21 to 31 percentage points lower than white students. Economically disadvantaged students scored 24 to 32 percentage points lower than non-economically disadvantaged students.
Planned Strategies and Interventions:	Teachers will use district curriculum guides and assessments, will incorporate differentiated instruction to all students and will encourage students to visit the library and read 20 books or more in the school year. All staff will build stronger relationships with students, parents, and community. Assisting students to make positive connections to caring adults who will encourage academic and social competence.
Accomplishments:	The data shows a decrease in the achievement gap with African American and white students by 4 percentage points. 43% of students read 20 books or more.
Implications for next year:	All students below grade level or tested non proficient will be required to take a reading intervention course.

<b>Writing</b>	
Goal:	7th grade students will achieve proficiency on the Writing MEAP
Data to support goal selection:	2008 MEAP data showed that African American students scored 25 percentage points lower than white students. Economically disadvantaged students scored 24 percentage points lower than non-economically disadvantaged students.
Planned Strategies and Interventions:	All teachers will incorporate writing in weekly lessons. ELA teachers will utilize the Calkins method of writing and incorporate cooperative learning and alternative methods of instruction to improve students writing technique.
Accomplishments:	Ongoing professional development on Calkins for all ELA teachers.
Implications for next year:	ELA teachers will utilize research based writing strategies. All teachers will incorporate cooperative learning and alternative teaching strategies to improve student writing.

## School Improvement Plan

<b>Math</b>	
Goal:	To improve mathematics performance for the 2009-2010, all students meet or exceed state target goals.
Data to support goal selection:	African American students scored 21 percentage points lower than white students. Economically disadvantaged students scored 28 percentage points lower than non-economically disadvantaged students.
Planned Strategies and Interventions:	Any student in need of additional support in math can receive assistance through extended activities and scheduled courses. Teachers and counselors will identify minority students and economically disadvantaged students who are eligible for advanced course work and make recommendations for placement.
Accomplishments:	Provided more after-school math tutoring, all math teachers and At-risk math interventionist provided tutoring.
Implications for next year:	All students below grade level or tested non-proficient on MEAP will be required to take a strategic math course. New math text books with online and diagnostic supports.

## School Improvement Plan

Science	
Goal:	Support goals of reading, writing and mathematics through the integration of math, reading and writing skills within the context of science to increase science proficiency MEAP scores.
Data to support goal selection:	African American students scored almost three grade levels behind their white counterparts. On the 2008 Science MEAP African American students scored nearly 30 percentage points lower than white students. Economically disadvantaged students scored 30 percentage points lower than non-economically disadvantaged students. The data from the 2009 MEAP science data was 14 percentage points lower than last year data.
Planned Strategies and Interventions:	Science teachers will incorporate math, reading and writing skills within the context of science.
Accomplishments:	
Implications for next year:	The data team members will analyze data and determine areas for focused attention. Science teachers will implement reading and writing strategies to improve understanding of core scientific concepts.

Social Studies	
Goal:	All Students will achieve proficiency on the 9th grade social studies MEAP by 2014.
Data to support goal selection:	African American students scored 57 and 25 percentage points below their white counterparts on the 2009 social studies MEAP in 6th and 9th grade. Economically disadvantaged students scored 41 and 19 percentage points below their non-economically disadvantaged counterparts on the 2009 social studies MEAP in 6th and 9th grades.
Planned Strategies and Interventions:	All teachers will use district curriculum guides and assessments. All teachers will reinforce the application of core democratic values and citizenship while assisting students with making positive connections to caring adults who will encourage academic and social competence.
Accomplishments:	
Implications for next year:	All social studies teachers will incorporate differentiated instruction in teaching and learning strategies using district and supplemental materials.

Every child, every opportunity, every time!

# Core Curriculum

The purpose of the Kalamazoo Public Schools curriculum is to ensure that all students learn the same essential content based on the Michigan Department of Education (MDE) standards and expectations. The curriculum ensures that students will be able to access, evaluate, and use information in a technology-dependent world. The curriculum provides optimal learning opportunities for all students and is designed to ensure post-secondary success in institutions of higher education and the workplace.

## **The Process of Curriculum Development and Alignment**

As of 2007-2008, curriculum leaders, in conjunction with teachers, have integrated three major approaches to curriculum work in the development model. This model recognizes that creating curriculum guides alone does not enhance student achievement; it is merely the first step. Curriculum work must funnel down to classroom instruction, assessment, and instructional improvement based on data in order to maximize student achievement. As such, the model is focused on the work of Ainsworth, Marzano, Wiggins, and Tomlinson specifically as related to using standards for curriculum development, unit design, lesson design, instruction, differentiated instruction, and assessment (formative and summative). Our current process is indicated below:

- Unpack and prioritize Michigan Department of Education's grade level content standards (i.e., GLCEs and HSCEs).
- Unpack expectations using Ainsworth model of identifying verbs, nouns, concepts, skills, big ideas, essential questions, identify level of Bloom's Taxonomy for each expectation, create assessment items aligned to each prioritized standard
- Prioritize expectations
- Group expectations to create measurement topics
- Create end of course assessments
- Create assessment map
- Chunk
- Create course map and common formative assessments\*
- Train team in data analysis
- Create units of instruction using the Understanding by Design (UbD) model
- Implement, assess, reflect, modify for improvement

\*Common formative assessments are defined as periodic or interim assessments, collaboratively designed by grade-level or course teams of teachers and administered to all students in a grade level or course several times during the quarter, semester, trimester, or entire school year (Ainsworth, 2006).

The process of revising curriculum guides in the district involves teachers and curriculum leaders collaboratively conducting gap analyses using the following approach, in part, outlined by MDE:

- Standards and expectations published by MDE are identified and prioritized.
- Teams review existing documents to 1) determine whether GLCEs or HSCEs are taught in the curriculum and 2) identify the level of proficiency outcomes should be met.
- Pacing guides are reviewed to determine alignment along with corresponding resources.

Guides requiring revisions adhere to the cycle noted under *Process for Curriculum Development*.

All curriculum guides in the district are based on state standards and expectations. Serving as *living documents*, curriculum guides are reviewed annually to ensure alignment to state expectations and to incorporate needed revisions based on student data, research on best practices, and feedback from all stakeholders. In an effort to increase student achievement and effectively implement the curriculum, teachers across content areas engage in ongoing professional development. The sessions are designed to assist teachers in developing their capacity to a) further study and develop strategies to implement the GLCEs and HSCEs, b) use data to drive instruction, and c) identify areas of interest to strengthen classroom instruction. The district offers a variety of professional growth opportunities: differentiated professional development that allows teachers to develop in areas of interest; grade level/department sessions; school and district-wide sessions based on curriculum, data, and school improvement plans; training for group facilitators and content leaders representing their respective buildings; and voluntary after school sessions to further support instruction.

Several data warehousing systems are accessed to plan and evaluate professional development (building and district level), evaluate the impact of curriculum and instruction on student achievement, and support the development of school improvement plans. At the building level, staff members further align classroom instruction based on results from item analyses, disaggregated data based on subgroups, and noted trends over a period of time. At the district level, both aggregate and disaggregated data are used to establish academic goals, identify programming needs, and plan meaningful and relevant professional development.

## **The Foundation of Core Courses**

All core courses (English Language Arts, mathematics, science, and social studies) are based on GLCEs or HSCEs. Students have access to courses across levels with opportunities for differentiated instruction. Resources are aligned to curriculum guides based on state expectations and offer activities to meet diverse learning styles and needs. Classes plan for small and whole group differentiated instruction to ensure that all students have equal and equitable access to appropriate core outcomes. Student data (formative and context-bound) is also used to guide decision making and select appropriate resources. Special education teachers receive core curriculum guides and participate in training to interpret expectations for areas under study. Special education teachers also have the opportunity to work with building teams in identifying best practices for reaching struggling learners. Professional development opportunities with corresponding resources are offered to all teachers in the district

### **Teaching to Expectations (Units of Study)**

Curriculum documents are designed to teach the Michigan Grade Level Content Expectations (GLCEs) to all students. The units of study are divided into three stages based on the genres to be explicitly taught at each grade level. **Stage 1** of each unit identifies the desired results for all students in a specific grade level. Stage 1 specifies what each student should know, understand, and be able to do at the end of the unit. The “desired results” designates the content worthy of understanding, what enduring understandings are desired, and what essential questions will be explored. Stage 1 calls for clarity about the priorities of the unit. **Stage 2** of each unit determines the acceptable evidence from the desired understandings and content of the unit of study. Stage 2 provides diagnostic, formative, and summative assessment to allow educators to know when students have achieved the desired results of the unit. This stage describes the acceptable evidence of a student’s understanding and proficiency. The assessment evidence reflects the desired results of Stage 1. **Stage 3** of each unit is the instructional plan. Stage 3 suggests the activities, sequence, and resources which are best suited to accomplish the goals established in Stage 1. This stage focuses on the knowledge and skills students need to perform effectively to achieve the desired results. The goal is to make teaching engaging and effective for learners, while always keeping the end in mind.

### **English Language Arts**

The kindergarten through third grade curriculum writing teams drafted reading guides winter 2009. All elementary teachers received draft guides and professional development fall 2009 and 2010. Full implementation of guides in classrooms is scheduled fall 2010.

In the area of writing at the elementary level, teams will assemble during the 2009-2010 school year to review resources. The outcome of the review will drive development of K-5 writing curriculum guides during 2010-2011 with full implementation and professional development in 2011-2012. Serving as living documents, writing teams will review guides yearly to a) incorporate diagnostic assessments, b) adjust expectations for learning experiences based on data, c) include scaffolding and reference materials, and d) strengthen units of study. At the secondary level, teams assembled fall 2009 to review resources and write guides for targeted courses. English curriculum guides drafted in 2007-2008 were scheduled for full implementation during 2009-2010 or 2010-2011. Professional development activities occurred fall 2009 and will in fall 2010. Plans to conduct resources audits for specific elective English courses will occur during 2011-2012 with possible adoption recommendations and curriculum development work in 2012-2013.

### **Math**

A representative group of elementary teachers assembled in fall 2008 to explore options for new resources aligned with state expectations and based on best practices for grades K-5. Following the scheduled resource pilot in January 2009, mathematics leadership team members will identify and recommended a new series in March 2009. Professional development activities were scheduled for late summer and fall 2009 that provided assistance to classroom teachers with using guides and new textbook series to teach grade-level content expectations. During 2008-2010, the curriculum writing team, along with classroom teachers, convened periodically to report on the quality of guides and offered recommendations for improvement. The implementation began in fall 2009 and will be provided with ongoing opportunities for improving guide components and professional development.

With respect to middle school mathematics, the leadership team will review resources during 2009-2010 to investigate quality, relevance in meeting state expectations, and unification of format and content with the K-5 program. Based on findings, the adoption and curriculum development process may occur in 2010-2011 with scheduled professional development in fall 2011. In the meantime, to focus instruction on grade-level content expectations and support instructional practices, mathematics writing teams will assemble in winter 2009 to strengthen currently used guides. In winter 2009, high school curriculum writing teams collaborated with teachers to complete guides drafted during 2007-2008. In fall 2009, teachers received drafts guides and are expected to fully implement the program during 2009-2010. Plans to conduct resource audits for specific elective courses will occur 2010-2011. Revisions in state course expectations will direct future curriculum writing efforts during 2010-2011 and 2011-2012

### **Science**

During the 2007-2008, the district adopted a K-6 science program developed by Battle Creek Area Mathematics and Science Center (BCAMSC) in Battle Creek, Michigan. BCAMSC curriculum guides contain instructional units aligned with grade level content expectations for life, earth, and physical science strands. On a yearly basis, BCAMSC provides teachers with updated unit activities and curriculum guides (components), includes resources to address realignment needs indicated by MDE, and offers professional development. Over the past two years, the district has phased in units by specific grade levels. In accordance with the final phase of implementation plan, 3rd through 6th grade teacher received the newly realigned science units with curriculum guides and training in fall 2009. consistent with the elementary direction and based on the results of an resource audit conducted in 2007, the science leadership teams will consider piloting BCAMSC units along with other resource options for 7th and 8th grades in spring 2010. Upon approval, the leadership team will deliver professional development sessions during 2010-2011. In the meantime, the 7th grade curriculum writing team assembled in winter 2009 to draft pacing guides and identify supplementary materials for use in fall 2009. Similarly, the 8th grade curriculum writing team assembled in winter 2009 to continue writing pacing guides previously drafted in 2007-2008. Seventh and eighth grade teachers received draft pacing guides in fall 2009 with supporting professional development. Full implementation of the 7th and 8th grade science curriculum guides will occur 2010-2011.

In 2010-2011, curriculum writing teams will implement secondary science guides drafted during 2008-2009. Curriculum teams worked during the summer in writing these guides to provide teachers with drafts and professional development in the fall 2009. Teachers will fully implement revised guides in 2011 with opportunities for improving guide components and professional development. Curriculum writing teams will assemble during 2009-2010 and 2010-2011 to investigate alignment between high school content expectations and currently used textbooks in honors and elective courses. Based on findings, recommendations for adoptions and the subsequent revision of curriculum guides will occur in winter 2010 with professional development during 2010-2011.

## **Social Studies**

To address MDE revisions at the elementary level curriculum writing teams conducted K-5 resource audits to ensure alignment to the grade level content expectations. Teachers will receive draft guides in fall 2010 with supporting professional development. Full implementation of guides is expected fall 2011. At the middle school level, 6th grade recently underwent a textbook adoption and as a result, curriculum writing teams assembled draft curriculum guides that provide direction in implementing the newly adopted series in the fall of 2009. Teachers engaged in professional development in fall 2009 and will continue the work during the year. Full implementation of the revised guide is scheduled fall 2010.

During 2009-10, the middle school social studies curriculum writing team will review grade level content expectations and resources to determine cohesiveness of the 6th and 7th grade courses. Recommendations to shift or redistribute partial content in 7th grade to 6th may occur based on breadth of current MDE social studies topics. This decision will assist with ensuring vertical articulation between courses. Based on resource needs, the curriculum writing team may recommend an adoption during 2009-2010. The 7th grade curriculum writing team will continue drafting curriculum pacing guides during 2009-2010 with full implementation in 2011. In 8th grade, a textbook adoption committee convened in 2007-2008 to conduct a resource audit and pilot selected resources. As a result of the pilot, committee members recommended a new textbook series for adoption in winter 2010. In the meantime, the curriculum writing team will complete 8th grade previously drafted in 2008-2009. Teachers received draft guides in fall 2009 with scheduled professional development. Full implementation of the 8th grade guides with new resources is scheduled 2011.

High school social studies curriculum guides drafted in 2007-2008 are scheduled for full implementation in 2010-2011. To meet timelines, curriculum teams have assembled this year to continue writing guides. Several of these guides will undergo major revisions due to new MDE high school content expectations. Teachers received draft guides in fall 2009 along with professional development. With respect to elective courses, curriculum writing teams will conduct resource audits during 2010-2011 and 2011-2012. Curriculum writing teams may offer recommendations for adoptions based on findings. Writing teams will complete related work with developing curriculum guides between 2011-2012 and 2012-2013.

## **Variations**

All schools use Kalamazoo Public School's curriculum guides that are aligned to MDE expectations and standards. Magnet schools and schools with special themes integrate their specialized areas into the KPS curriculum.

## Full Annual Education Report

# School-Level Student Assessment Data for Kalamazoo RESA, Kalamazoo Public School District, Hillside Middle School

### Michigan Educational Assessment Program (MEAP)

Student Group	School Year	% Students Tested	State % Students Proficient	District % Students Proficient	School % Students Proficient	% Advanced (Level 1)	% Proficient (Level 2)	% Partially Proficient (Level 3)	% Not Proficient (Level 4)
