

Annual Education Report

2009-2010

Northeastern Elementary School

2433 Gertrude Avenue

Kalamazoo, MI 49001

Phone Number 269.337-0690 . Fax Number 269.337-1629

chartiersm@kalamazoo.k12.mi.us

The mission of Northeastern Elementary School, a cornerstone of the Eastside community, is dedicated to ensuring all students will achieve their highest intellectual and social potential while developing individual student responsibility toward family, community and society.

Superintendent: Dr. Michael F. Rice

Principal: Ms. Susan Chartier

2009-10 Board of Education

President: Ms. Mollie Peterson

Vice-President: Ms. Carol McGlinn

Secretary: Ms. Marcy L. Peake

Treasurer: Mr. Ervin Armstrong

Trustee: Ms. Patti Sholler-Barber

Trustee: Mr. Eric Breisach

Trustee: Ms. Liz Henderson

Kalamazoo Public Schools

Every child, every opportunity, every time!

School Annual Education Report (AER) Cover Letter

August, 2010

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2009-2010 educational progress for the Northeastern Elementary School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, Adequate Yearly Progress (AYP) and teacher quality. If you have any questions about the AER, please contact Ms. Sue Chartier for assistance.

The AER is available for you to review electronically by visiting the following web site <http://www.kalamazoopublicschools.com/2009-2010-kalamazoo-public-schools-building-annual-reports> or you may review a copy from the office at your child's school.

For 2009-2010, Northeastern Elementary made Adequate Yearly Progress (AYP) in English language arts and mathematics. While we are pleased to have reached this important goal, we are continuously working to improve. We appreciate the continued support of parents, staff and our community in this effort.

State law requires that we also report additional information.

1. PROCESS FOR ASSIGNING PUPILS TO THE SCHOOL
2. THE STATUS OF THE 3-5 YEAR SCHOOL IMPROVEMENT PLAN
3. A BRIEF DESCRIPTION OF EACH SPECIALIZED SCHOOL
4. IDENTIFY HOW TO ACCESS A COPY OF THE CORE CURRICULUM, A DESCRIPTION OF ITS IMPLEMENTATION AND AN EXPLANATION OF THE VARIANCES FROM THE STATE'S MODEL
5. THE AGGREGATE STUDENT ACHIEVEMENT RESULTS FOR ANY LOCAL COMPETENCY TESTS OR NATIONALLY NORMED ACHIEVEMENT TESTS
6. IDENTIFY THE NUMBER AND PERCENT OF STUDENTS REPRESENTED BY PARENTS AT PARENT-TEACHER CONFERENCES

Sincerely,

Sue Chartier
Principal

Overview of School

Accreditation Status & Education YES! Grades

The chart below identifies our buildings accreditation status and grades as determined by Education YES!

Education Yes! Report Card	2009-2010		2008 – 2009 *	
	Score	Grade	Score	Grade
Mathematics	83.9	B	70.6	C
English Language Arts	N/A	N/A	67.3	D
Reading	78.4	C	N/A	N/A
Science	N/A	N/A	N/A	N/A
Social Studies	N/A	N/A	N/A	N/A

Composite Grade	B		C	
Michigan Accreditation Status *	Accredited		Accredited	

*Schools continue to be accredited unless they receive a D Alert grade, at which point they become designated as unaccredited for the state of Michigan

2009–2010 Highlights

- Increased the number of student mentors from our partnership with Kids Hope.
- Increase in number of students served in community after-school tutoring-partnership with East Main Church of Christ.
- 98% of Northeastern parents attended fall Parent/Teacher conferences.
- 97% of Northeastern parents attended spring Parent/Teacher conferences.
- Over 300 parents, family members, and students attended Northeastern Literacy Night.
- Northeastern Staff members applied for and received over \$2,500.00 in grant money to support student learning.

2009–2010 Highlights cont.

- Recipient of the Target Library Makeover grant, bringing in \$500.00 worth of new library books.

Parent Involvement

Parent-Teacher Conference Attendance Rates				
School	Fall 2009		Spring 2010	
	#	%	#	%
Northeastern	314	98	337	96

Parent Involvement Policy

District Policy

The District will consistently work, in a variety of ways, to strengthen meaningful family participation in the education of their children.

Northeastern's Parent Involvement

Parents are encouraged to participate in the Parent Group, the School Improvement Team and other school enrichment activities. Parent involvement is assessed through the yearly parent survey.

School Assignment Process

Students are assigned to schools within the district based on geographic boundaries that are published on the district website- <http://www.kalamazoopublicschools.com/district-attendance-areas>

Students who wish to attend one of our specialized magnet schools must submit an application to enter the magnet lottery.

School Improvement Plan

Reading	
Goal:	All students will score proficient on the English Language Arts MEAP in the area of reading by 2014.
Data to support goal selection:	The MEAP reading scores of black students in Grade 5 are 14 points below the scores of white students.
Planned Strategies and Interventions:	<p>Increase fluency practice using Rewards and Read Naturally interventions .</p> <p>Provide reading materials for identified student use at home</p> <p>Provide students with explicit vocabulary instruction.</p> <p>Provide embedded practice-oriented professional development for teachers on explicit vocabulary instruction</p>
Accomplishments:	The MEAP reading scores of black students in Gr. 5 are 9 percentage points below the scores of white students. The achievement gap between black students and white students was reduced by 5
Implications for next year:	Next year we will continue to provide research based reading interventions for our students. We will also provide for parents leveled books for additional reading practice at home.
Writing	
Goal:	All students will score proficient on the English Language Arts MEAP in the area of writing by 2014.
Data to support goal selection:	<p>The MEAP writing scores of black students in Grade 3 are 9 points below the scores of white students.</p> <p>The MEAP writing scores of black students in Grade 5 are 15 points below the scores of white minority students.</p>
Planned Strategies and Interventions:	<p>Identify specific conventions for each grade level that need explicit instruction</p> <p>Provide explicit instruction in sentence structure and vocabulary for identified students.</p> <p>Provide embedded practice oriented professional development for teachers in writing instruction.</p> <p>Provide additional support for students in the classroom in developing sentences and sentence structure.</p> <p>Provide additional time for writing by providing an extended day for Kindergarten students .</p>
Accomplishments:	During the 2009-2010 we implemented a research based writing intervention to provide students with support for students in developing sentences and sentence structure.
Implications for next year:	During the 2010 –2011 we will be analyzing students writing and planning for more systematic use of data at the grade level meetings.

School Improvement Plan

Math	
Goal:	All student subgroups will meet or exceed the State achievement mathematics targets in 2014.
Data to support goal selection:	The MEAP mathematics scores of black students in Grade 3 are 21 points below the scores of non-minority students. The MEAP mathematics scores of economically disadvantaged students in Grade 6 are 37 points below the scores of students who are not economically disadvantaged.
Planned Strategies and Interventions:	Increase time on task by providing in class support to keep students on task. Increase use of calculators to master basic facts both at home and school Identify targeted Math vocabulary for explicit vocabulary instruction Increase student learning time by providing an extended day Kindergarten.
Accomplishments:	The MEAP mathematic scores of black students exceeded the score of white students in grade 3 by 5 percentage point. This eliminated the achievement gap of this sub group.
Implications for next year:	Teachers will continue to provide students with research based math interventions.

Every child, every opportunity, every time!

School Improvement Plan

Science	
Goal:	All student subgroups will meet or exceed proficient on the Science MEAP in 2014.
Data to support goal selection:	The MEAP Science scores of black students in grade 5 are 41 points below the scores white students. The EdPerformance Science scores of black students in grade 3 are 1.2 grade levels below White students. The EdPerformance Science scores of students in grades 3, 4, and 5 that are eligible for free and reduced lunch are at least 1.2 grade levels below the scores of students who are not eligible for free and reduced lunch.
Planned Strategies and Interventions:	Full implementation of Battle Creek Math and Science Center curriculum. (District curriculum) Increase student learning time by providing extended day Kindergarten.
Accomplishments:	The MEAP Science scores of black students in Gr. 5 are 24 percentage points below the scores of white students. We reduced the achievement gap by 24 percentage points.
Implications for next year:	During the 2010-2011 school year we will be departmentalizing for Science instruction in Gr.5. The classroom teacher with the greatest amount of content knowledge and skills in science instruction will be teaching science to all 5th grade students.

Social Studies	
Goal:	All student subgroups will score proficient on the Social Studies MEAP test in 2014.
Data to support goal selection:	MEAP social studies scores of black students in grade 6 scoring proficient are 49 points below the scores of white students.
Planned Strategies and Interventions:	Increase cooperative learning experiences. Review, discuss, and plan according to grade level content expectations in grade level meetings.
Accomplishments:	MEAP social studies scores of black students are 7 percentage points below the scores of white students. We have reduced the achievement gap by 42 percentage points.
Implications for next year:	During the 2010-2011 school year the school will be using the new resources materials provided by the district. This will support a more systematic approach to planning and focused instruction based on the Grade Level Content Expectations.

Every child, every opportunity, every time!

School Assessment Data

Local and Norm Referenced Achievement Data

At Northeastern Elementary School we administer a variety of assessments to help determine student needs and progress. Students in grades 1 through 4 take the Iowa Test of Basic Skills to determine how students are progressing compared to a national peer group. Students in grades 3-9 also take Performance Series. Performance Series is a computer based assessment that gives teachers instant feedback on how well students on performing compared to their national peers and on the Michigan GLCE's.

Nationally Normed Achievement Tests – Iowa Test of Basic Skills (ITBS)

ITBS				
Sub-group	Reading GLE		Math GLE

Every child, every opportunity, every time!

Core Curriculum

The purpose of the Kalamazoo Public Schools curriculum is to ensure that all students learn the same essential content based on the Michigan Department of Education (MDE) standards and expectations. The curriculum ensures that students will be able to access, evaluate, and use information in a technology-dependent world. The curriculum provides optimal learning opportunities for all students and is designed to ensure post-secondary success in institutions of higher education and the workplace.

The Process of Curriculum Development and Alignment

As of 2007-2008, curriculum leaders, in conjunction with teachers, have integrated three major approaches to curriculum work in the development model. This model recognizes that creating curriculum guides alone does not enhance student achievement; it is merely the first step. Curriculum work must funnel down to classroom instruction, assessment, and instructional improvement based on data in order to maximize student achievement. As such, the model is focused on the work of Ainsworth, Marzano, Wiggins, and Tomlinson specifically as related to using standards for curriculum development, unit design, lesson design, instruction, differentiated instruction, and assessment (formative and summative). Our current process is indicated below:

- Unpack and prioritize Michigan Department of Education's grade level content standards (i.e., GLCEs and HSCEs).
- Unpack expectations using Ainsworth model of identifying verbs, nouns, concepts, skills, big ideas, essential questions, identify level of Bloom's Taxonomy for each expectation, create assessment items aligned to each prioritized standard
- Prioritize expectations
- Group expectations to create measurement topics
- Create end of course assessments
- Create assessment map
- Chunk
- Create course map and common formative assessments*
- Train team in data analysis
- Create units of instruction using the Understanding by Design (UbD) model
- Implement, assess, reflect, modify for improvement

*Common formative assessments are defined as periodic or interim assessments, collaboratively designed by grade-level or course teams of teachers and administered to all students in a grade level or course several times during the quarter, semester, trimester, or entire school year (Ainsworth, 2006).

The process of revising curriculum guides in the district involves teachers and curriculum leaders collaboratively conducting gap analyses using the following approach, in part, outlined by MDE:

- Standards and expectations published by MDE are identified and prioritized.
- Teams review existing documents to 1) determine whether GLCEs or HSCEs are taught in the curriculum and 2) identify the level of proficiency outcomes should be met.
- Pacing guides are reviewed to determine alignment along with corresponding resources.

Guides requiring revisions adhere to the cycle noted under *Process for Curriculum Development*.

All curriculum guides in the district are based on state standards and expectations. Serving as *living documents*, curriculum guides are reviewed annually to ensure alignment to state expectations and to incorporate needed revisions based on student data, research on best practices, and feedback from all stakeholders. In an effort to increase student achievement and effectively implement the curriculum, teachers across content areas engage in ongoing professional development. The sessions are designed to assist teachers in developing their capacity to a) further study and develop strategies to implement the GLCEs and HSCEs, b) use data to drive instruction, and c) identify areas of interest to strengthen classroom instruction. The district offers a variety of professional growth opportunities: differentiated professional development that allows teachers to develop in areas of interest; grade level/department sessions; school and district-wide sessions based on curriculum, data, and school improvement plans; training for group facilitators and content leaders representing their respective buildings; and voluntary after school sessions to further support instruction.

Several data warehousing systems are accessed to plan and evaluate professional development (building and district level), evaluate the impact of curriculum and instruction on student achievement, and support the development of school improvement plans. At the building level, staff members further align classroom instruction based on results from item analyses, disaggregated data based on subgroups, and noted trends over a period of time. At the district level, both aggregate and disaggregated data are used to establish academic goals, identify programming needs, and plan meaningful and relevant professional development.

The Foundation of Core Courses

All core courses (English Language Arts, mathematics, science, and social studies) are based on GLCEs or HSCEs. Students have access to courses across levels with opportunities for differentiated instruction. Resources are aligned to curriculum guides based on state expectations and offer activities to meet diverse learning styles and needs. Classes plan for small and whole group differentiated instruction to ensure that all students have equal and equitable access to appropriate core outcomes. Student data (formative and context-bound) is also used to guide decision making and select appropriate resources. Special education teachers receive core curriculum guides and participate in training to interpret expectations for areas under study. Special education teachers also have the opportunity to work with building teams in identifying best practices for reaching struggling learners. Professional development opportunities with corresponding resources are offered to all teachers in the district

Teaching to Expectations (Units of Study)

Curriculum documents are designed to teach the Michigan Grade Level Content Expectations (GLCEs) to all students. The units of study are divided into three stages based on the genres to be explicitly taught at each grade level. **Stage 1** of each unit identifies the desired results for all students in a specific grade level. Stage 1 specifies what each student should know, understand, and be able to do at the end of the unit. The “desired results” designates the content worthy of understanding, what enduring understandings are desired, and what essential questions will be explored. Stage 1 calls for clarity about the priorities of the unit. **Stage 2** of each unit determines the acceptable evidence from the desired understandings and content of the unit of study. Stage 2 provides diagnostic, formative, and summative assessment to allow educators to know when students have achieved the desired results of the unit. This stage describes the acceptable evidence of a student’s understanding and proficiency. The assessment evidence reflects the desired results of Stage 1. **Stage 3** of each unit is the instructional plan. Stage 3 suggests the activities, sequence, and resources which are best suited to accomplish the goals established in Stage 1. This stage focuses on the knowledge and skills students need to perform effectively to achieve the desired results. The goal is to make teaching engaging and effective for learners, while always keeping the end in mind.

English Language Arts

The kindergarten through third grade curriculum writing teams drafted reading guides winter 2009. All elementary teachers received draft guides and professional development fall 2009 and 2010. Full implementation of guides in classrooms is scheduled fall 2010.

In the area of writing at the elementary level, teams will assemble during the 2009-2010 school year to review resources. The outcome of the review will drive development of K-5 writing curriculum guides during 2010-2011 with full implementation and professional development in 2011-2012. Serving as living documents, writing teams will review guides yearly to a) incorporate diagnostic assessments, b) adjust expectations for learning experiences based on data, c) include scaffolding and reference materials, and d) strengthen units of study. At the secondary level, teams assembled fall 2009 to review resources and write guides for targeted courses. English curriculum guides drafted in 2007-2008 were scheduled for full implementation during 2009-2010 or 2010-2011. Professional development activities occurred fall 2009 and will in fall 2010. Plans to conduct resources audits for specific elective English courses will occur during 2011-2012 with possible adoption recommendations and curriculum development work in 2012-2013.

Math

A representative group of elementary teachers assembled in fall 2008 to explore options for new resources aligned with state expectations and based on best practices for grades K-5. Following the scheduled resource pilot in January 2009, mathematics leadership team members will identify and recommended a new series in March 2009. Professional development activities were scheduled for late summer and fall 2009 that provided assistance to classroom teachers with using guides and new textbook series to teach grade-level content expectations. During 2008-2010, the curriculum writing team, along with classroom teachers, convened periodically to report on the quality of guides and offered recommendations for improvement. The implementation began in fall 2009 and will be provided with ongoing opportunities for improving guide components and professional development.

With respect to middle school mathematics, the leadership team will review resources during 2009-2010 to investigate quality, relevance in meeting state expectations, and unification of format and content with the K-5 program. Based on findings, the adoption and curriculum development process may occur in 2010-2011 with scheduled professional development in fall 2011. In the meantime, to focus instruction on grade-level content expectations and support instructional practices, mathematics writing teams will assemble in winter 2009 to strengthen currently used guides. In winter 2009, high school curriculum writing teams collaborated with teachers to complete guides drafted during 2007-2008. In fall 2009, teachers received drafts guides and are expected to fully implement the program during 2009-2010. Plans to conduct resource audits for specific elective courses will occur 2010-2011. Revisions in state course expectations will direct future curriculum writing efforts during 2010-2011 and 2011-2012.

Science

During the 2007-2008, the district adopted a K-6 science program developed by Battle Creek Area Mathematics and Science Center (BCAMSC) in Battle Creek, Michigan. BCAMSC curriculum guides contain instructional units aligned with grade level content expectations for life, earth, and physical science strands. On a yearly basis, BCAMSC provides teachers with updated unit activities and curriculum guides (components), includes resources to address realignment needs indicated by MDE, and offers professional development. Over the past two years, the district has phased in units by specific grade levels. In accordance with the final phase of implementation plan, 3rd through 6th grade teacher received the newly realigned science units with curriculum guides and training in fall 2009. consistent with the elementary direction and based on the results of an resource audit conducted in 2007, the science leadership teams will consider piloting BCAMSC units along with other resource options for 7th and 8th grades in spring 2010. Upon approval, the leadership team will deliver professional development sessions during 2010-2011. In the meantime, the 7th grade curriculum writing team assembled in winter 2009 to draft pacing guides and identify supplementary materials for use in fall 2009. Similarly, the 8th grade curriculum writing team assembled in winter 2009 to continue writing pacing guides previously drafted in 2007-2008. Seventh and eighth grade teachers received draft pacing guides in fall 2009 with supporting professional development. Full implementation of the 7th and 8th grade science curriculum guides will occur 2010-2011.

In 2010-2011, curriculum writing teams will implement secondary science guides drafted during 2008-2009. Curriculum teams worked during the summer in writing these guides to provide teachers with drafts and professional development in the fall 2009. Teachers will fully implement revised guides in 2011 with opportunities for improving guide components and professional development. Curriculum writing teams will assemble during 2009-2010 and 2010-2011 to investigate alignment between high school content expectations and currently used textbooks in honors and elective courses. Based on findings, recommendations for adoptions and the subsequent revision of curriculum guides will occur in winter 2010 with professional development during 2010-2011.

Social Studies

To address MDE revisions at the elementary level curriculum writing teams conducted K-5 resource audits to ensure alignment to the grade level content expectations. Teachers will receive draft guides in fall 2010 with supporting professional development. Full implementation of guides is expected fall 2011. At the middle school level, 6th grade recently underwent a textbook adoption and as a result, curriculum writing teams assembled draft curriculum guides that provide direction in implementing the newly adopted series in the fall of 2009. Teachers engaged in professional development in fall 2009 and will continue the work during the year. Full implementation of the revised guide is scheduled fall 2010.

During 2009-10, the middle school social studies curriculum writing team will review grade level content expectations and resources to determine cohesiveness of the 6th and 7th grade courses. Recommendations to shift or redistribute partial content in 7th grade to 6th may occur based on breadth of current MDE social studies topics. This decision will assist with ensuring vertical articulation between courses. Based on resource needs, the curriculum writing team may recommend an adoption during 2009-2010. The 7th grade curriculum writing team will continue drafting curriculum pacing guides during 2009-2010 with full implementation in 2011. In 8th grade, a textbook adoption committee convened in 2007-2008 to conduct a resource audit and pilot selected resources. As a result of the pilot, committee members recommended a new textbook series for adoption in winter 2010. In the meantime, the curriculum writing team will complete 8th grade previously drafted in 2008-2009. Teachers received draft guides in fall 2009 with scheduled professional development. Full implementation of the 8th grade guides with new resources is scheduled 2011.

High school social studies curriculum guides drafted in 2007-2008 are scheduled for full implementation in 2010-2011. To meet timelines, curriculum teams have assembled this year to continue writing guides. Several of these guides will undergo major revisions due to new MDE high school content expectations. Teachers received draft guides in fall 2009 along with professional development. With respect to elective courses, curriculum writing teams will conduct resource audits during 2010-2011 and 2011-2012. Curriculum writing teams may offer recommendations for adoptions based on findings. Writing teams will complete related work with developing curriculum guides between 2011-2012 and 2012-2013.

Variations

All schools use Kalamazoo Public School's curriculum guides that are aligned to MDE expectations and standards. Magnet schools and schools with special themes integrate their specialized areas into the KPS curriculum.

Northeastern Elementary Parent-Student-School Compact

Northeastern Staff will:

- Show respect for each child and their family
- Provide a safe environment for learning
- Demonstrate professional behavior

Teach grade level content expectations with the intent that all students
will achieve at grade level or higher

Communicate with parents/guardians about their child's academic and social progress

Teacher Signature_____

Northeastern Students will:

- Respect themselves and others
- Be responsible for their school work
- Be responsible for their behavior

Act in a safe manner at school

Student Signature_____

Northeastern Parents and Guardians will:

- Make sure their child/children are on time for school and come to school everyday
- Make sure their child/children do their homework
- Make sure their child/children get a good nights sleep
- Attend Parent/Teacher conferences
- Expect their child/children to follow school rules
- Provide the school with emergency contact information

Talk with their child/children about what they are doing in school

Parent Signature_____
