

KALAMAZOO PUBLIC SCHOOLS

Managed Care Overview:

NGS CoreSource has established working relationships with several managed care entities throughout the country. NGS CoreSource offers the flexibility to work with the managed care alternatives that work best for our clients' needs.

These relationships include working with national, regional and local managed care entities. NGS CoreSource has also developed and interfaced with direct contracted employer/provider arrangements in areas where networks were not available.

NGS CoreSource does not accept compensation from any managed care entity, thus NGS CoreSource remains objective in the arrangements established by our clients. Should a managed care entity offer any type of compensation, NGS CoreSource will request those commissions offset the access fees our clients are paying for the use of the network.

The following lists a short synopsis for **Kalamazoo Public Schools:**

KALAMAZOO PUBLIC SCHOOLS
