

# Annual Education Report

2008-2009

## Woodward School for Technology & Research

606 Stuart Ave.

Kalamazoo, MI 49007

Phone Number 269.337.0810 . Fax Number 269-337-1638

The mission of Woodward School for Technology and Research is to create a nurturing environment where children can grow and flourish to reach their full potential.

Superintendent: Dr. Michael F. Rice

Principal: Ms. Beth Yankee

### 2008-09 Board of Education

President: Ms. Patti Sholler-Barber

Vice-President: Ms. Mollie Peterson

Secretary: Ms. Liz Henderson

Treasurer: Mr. Eric Breisach

Trustee: Mr. Phillip W. Dietrich

Trustee: Ms. Marcy L. Peake

Trustee: Ms. Carol McGlenn

Kalamazoo Public Schools

Every child, every opportunity, every time!

# Overview of School

## 2008–2009 Highlights (cont.)

### Accreditation Status & Education YES! Grades

The chart below identifies our buildings accreditation status and grades as determined by Education YES!

Education Yes! Report Card	2008 – 2009		2007 – 2008	
	Score	Grade	Score	Grade
Mathematics	68.9	D	75.5	C
English Language Arts	53.6	F	56.9	F
Science	N/A	N/A	N/A	N/A
Social Studies	N/A	N/A	N/A	N/A
Achievement Subtotal	61.3	D	66.2	D
Indicators of School	100	A	100	A
Preliminary	74	C	77	C
AYP Status	Met AYP- Y		Met AYP- Y	
Composite Grade	C		C	
Michigan Accreditation	Accredited		Accredited	

\* Schools continue to be accredited unless they receive a D Alert grade, at which point they become designated as unaccredited for the state of Michigan

### Specialized School

Our school is a “Environmental Sustainability” Magnet.

### 2008–2009 Highlights

- 5th grade students represented WSTaR at the State of Michigan’s History Day, 7 students went to district finals and 5 students went to state finals. One student received 1<sup>st</sup> place in the state and 4 others received 3<sup>rd</sup> place.
- Implemented year 2 the federal Magnet Schools Assistant Program grant.
- Outstanding Winter & Spring concerts.
- Supported the creative arts through infusing our magnet theme with visual and performing arts.
- Outstanding parent participation at Math Family Fun Night, Literacy Night and the Family End of the Year Celebration.
- Honored over 40 Star Students, with 99% parent participation for the breakfast. Supported by KCISF.
- Collaborated with KCIS foundation to support parents and increase parent involvement.
- Celebrated 12-year partnership with Kalamazoo College in the following activities and projects: thousands of volunteers have worked as mentors, literacy tutors, math tutors, writing tutors, science mentors, and activity helpers; provided exciting enrichment opportunities for our children—After-school math & writing tutoring, Sisters In Science Mentors, and classroom literacy tutors.

- Strengthened partnership with Fair Food Matters: Growing Matters Garden to infuse The Roots of Knowledge Garden into curriculum.
- Create a wildlife habitat garden.
- Participated in JIFF (Jump Into Food and Fitness) through Michigan State University Extension.
- Served as Girls on the Run site.
- Offered after school PALS math & writing tutoring for 4<sup>th</sup> and 5<sup>th</sup> grade students.
- Offered after school literacy tutoring for K-5.
- Supported four Parent Corps Workers to work with children in the classroom and support the teachers.
- Secured a KPS Innovative Learning Grant for Dedicated Parents as Partners grant focused improving parental involvement and supporting literacy.

### Parent Involvement

Parent-Teacher Conference Attendance Rates				
School	Fall 2008		Spring 2009	
	#	%	#	%
Woodward	425	99	418	100

### Parent Involvement Policy

#### District Policy

*The District will consistently work, in a variety of ways, to strengthen meaningful family participation in the education of their children.*

#### Woodward’s Parent Involvement

Parents are encouraged to participate in the Parents Association, the school improvement team and other school enrichment activities. Parent involvement is assessed through the yearly parent survey.

### Highly Qualified Staff

- 100% of the staff is teaching in their credential area of experience.
- No teachers with emergency or provision credentials are teaching in either the high or low poverty schools.
- No teachers are teaching in the classroom in either the high or low poverty schools that are not highly qualified.
- 1 Administrator with a Masters
- 25 teachers; 14 with a Bachelors Degree; 10 with a Masters Degree; and 1 with a Masters+30
- All Title I instructional paraprofessionals are compliant with the NCLB requirements for highly qualified.

## School Improvement Plan

Reading																																							
Goal:	100% of our students will be proficient in ELA.

Planned Strategies and Interventions:	<p>Provide targeted literacy interventions for grades 3-5, train hourly tutors for interventions, monitor student progress, assist with grade level meetings</p> <p>Implement Reading Recovery program</p> <p>Utilize Hourly Tutors in grades K-5 to provide additional targeted literacy interventions 3-5 days a week, collect reading data</p> <p>Implement full day kindergarten</p> <p>Provide targeted after school interventions with Kalamazoo College Tutors</p> <p>Provide Parent Literacy Support Workshops.</p> <p>Implement cross grouping by grade level for targeting literacy interventions</p> <p>Provide targeted kindergarten literacy interventions</p>																																						
Accomplishments:	<p>Increased interventions to 5 days a week 30-minutes daily.</p> <p>Cross group benchmark, strategic intensive students for targeted interventions 20-30 minutes daily 5 days a week.</p> <p>Additional targeted literacy intervention throughout the day or extended day.</p>																																						
Implications for next year:	<p><b>Continue to use the following interventions:</b></p> <ul style="list-style-type: none"> <li>• K-3 Literacy Coach</li> <li>• Reading Recovery</li> <li>• Title I Hourly Tutors</li> <li>• Magnet Consultants Rick &amp; Helen Writing Workshops/PD</li> <li>• Literacy Interventions: K-PALS, PALS, Rewards, Reading Mastery, Read Naturally, Road to the Code, Project Optimize, after school PALS</li> </ul>																																						

Every child, every opportunity, every time!

**Writing**

Goal:	100% of our students will be proficient in ELA.
Data to support goal selection:	<p><b>MEAP Writing</b></p> <p>3rd Grade Economically Disadvantaged—29% Non-E/D—TF African American—28% White—54%</p> <p>4th Grade Economically Disadvantaged—2% Non-E/D—10% African American—5% White— TF</p> <p>5th Grade Economically Disadvantaged—29% Non-E/D—53% African American—26% White—53%</p>
Planned Strategies and Interventions:	<p>Provide monthly Workshops targeted literacy/writing interventions</p> <p>Provide School-Wide focus on high-level non-fiction writing, student performance assessments, work-sampling portfolios</p>
Accomplishments:	<p>Increased interventions to 5 days a week 30-minutes daily.</p> <p>Cross group benchmark, strategic intensive students for targeted interventions 20-30 minutes daily 5 days a week.</p> <p>Additional targeted literacy intervention throughout the day or extended day.</p>
Implications for next year:	<p><b>Continue to use the following interventions:</b></p> <ul style="list-style-type: none"> <li>• K-3 Literacy Coach</li> <li>• Reading Recovery</li> <li>• Title I Hourly Tutors</li> <li>• Magnet Consultants Rick &amp; Helen Writing Workshops/PD</li> </ul> <p>Literacy Interventions: K-PALS, PALS, Rewards, Reading Mastery, Read Naturally, Road to the Code, Project Optimize, after school PALS</p>

**Science**

Goal:	100% of our students will be proficient in ELA.
Data to support goal selection:	<p><b>MEAP Science</b></p> <p>5th Grade Economically Disadvantaged—40% Non-E/D—71% African American—33% White—87%</p> <p><b>Ed Performance Science (Year. Month)</b></p> <p>3<sup>rd</sup> Grade African American-2.6 White-4.2</p> <p>4<sup>th</sup> Grade African American-3.3 White-4.9</p> <p>5<sup>th</sup> Grade African American-4.0 White-6.0</p> <p>6<sup>th</sup> Grade African American-4.2 White-N/A</p>
Planned Strategies and Interventions:	<p>Implement magnet curriculum with a focus on 21<sup>st</sup> century skills embedded into science and social studies GLCEs.</p> <p>Integrate technology into daily science and social studies instruction.</p> <p>Provide professional development for staff focused on best practices teaching and learning strategies for 21t century skills.</p> <p>Integrate Experiential Learning through community partnerships to provide “real world” experiences to connect and apply skills.</p>
Accomplishments:	Implemented new Magnet Curriculum aligned to State Science GLCEs.
Implications for next year:	<p>Additional targeted math intervention throughout the day or extended day. 5<sup>th</sup> Grade content specific grouping for math and science/social studies. Revised and targeted after school math tutoring program.</p> <p>Targeted after school tutoring.</p>

## Math

Goal:	100% of our students will be proficient in Math.
Data to support goal selection:	<p><b>MEAP Math</b></p> <p>3rd Grade Economically Disadvantaged—83% Non-E/D—TF African American—82% White—85%</p> <p>4th Grade Economically Disadvantaged—58% Non-E/D—90% African American—58% White— TF</p> <p>5th Grade Economically Disadvantaged—50% Non-E/D—65% African American—41% White—80%</p> <p>3<sup>rd</sup> Grade African American-2.7 White-3.5 Free/Reduced-2.8 Non-Free/Reduced-3.0</p> <p>4<sup>th</sup> Grade African American-3.5 White-4.5 Free/Reduced-3.6 Non-Free/Reduced-4.0</p> <p>5<sup>th</sup> Grade African American-4.3 White-5.1 Free/Reduced-4.4 Non-Free/Reduced-5.0</p> <p>6<sup>th</sup> Grade African American-4.3 White-n/a Free/Reduced-4.6 Non-Free/Reduced-n/a</p> <p><b>Grade 1</b> African American students 1.4, White students 2.0 Free/Reduced Lunch 1.5, Non-Free/Reduced lunch 1.9</p> <p><b>Grade 2</b> African American students 2.0, White students 2.5 Free/Reduced Lunch 2.0, Non-Free/Reduced lunch 2.8</p> <p><b>Grade 3</b> African American students 2.8, White students 3.5 Free/Reduced Lunch 2.8, Non-Free/Reduced lunch 4.1</p> <p><b>Grade 4</b> African American students 3.6, White students 4.8 Free/Reduced Lunch 3.5, Non-Free/Reduced lunch 4.7</p> <p><b>Grade 5</b> African American students 4.4, White students 6.0 Free/Reduced Lunch 4.4, Non-Free/Reduced lunch 5.7</p> <p><b>Grade 6</b> African American students 5.0, White students 6.4 Free/Reduced Lunch 5.0, Non-Free/Reduced lunch 5.</p>
Planned Strategies and Interventions:	<p>Provide targeted math interventions for grades 3-5, provide professional development for teachers in best practices for math instruction, assist with grade level meetings.</p> <p>Implement 5th grade level math specialist for cross grouping in 5th grade.</p> <p>Provide targeted after school interventions with Kalamazoo College Tutors</p> <p>Provide Math Family Fun Night for Parents</p>
Accomplishments:	Targeted small group math interventions.
Implications for next year:	<p>Additional targeted math intervention throughout the day or extended day. 5<sup>th</sup> Grade content specific grouping for math and science/social studies. Revised and targeted after school math tutoring program.</p> <p>Targeted after school tutoring.</p>

Social Studies	
Goal:	100% of our students will be proficient in ELA.
Data to support goal selection:	<b>MEAP Social Studies</b> 6th Grade Economically Disadvantaged—12% Non-E/D—TF African American—14% White—TF
Planned Strategies and Interventions:	Implement magnet curriculum with a focus on 21 <sup>st</sup> century skills embedded into science and social studies GLCEs.  Integrate technology into daily science and social studies instruction.  Provide professional development for staff focused on best practices teaching and learning strategies for 21 <sup>st</sup> century skills.  Integrate Experiential Learning through community partnerships to provide “real world” experiences to connect and apply skills.
Accomplishments:	Implemented new Magnet Curriculum aligned to State Social Studies GLCEs.
Implications for next year:	Additional targeted math intervention throughout the day or extended day. 5 <sup>th</sup> Grade content specific grouping for math and science/social studies. Revised and targeted after school math tutoring program. Targeted after school tutoring.

Every child, every opportunity, every time!

## School Assessment Data

### Local and Norm Referenced Achievement Data

At Woodward Magnet School Elementary School we administer a variety of assessments to help determine student needs and progress. Students in grades 1 through 4 take the Iowa Test of Basic Skills to determine how students are progressing compared to a national peer group. Students in grades 3–9 also take Performance Series. Performance Series is a computer based assessment that gives teachers instant feedback on how well students on performing compared to their national peers and on the Michigan GLCE's.

# Core Curriculum

The purpose of the Kalamazoo Public Schools curriculum is to ensure that all students learn the same essential content based on the Michigan Department of Education (MDE) standards and expectations. The curriculum ensures that students will be able to access, evaluate, and use information in a technology-dependent world. The curriculum provides optimal learning opportunities for all students and is designed to ensure post-secondary success in institutions of higher education and the workplace.

## **The Process of Curriculum Development and Alignment**

As of 2007-2008, curriculum leaders, in conjunction with teachers, have integrated three major approaches to curriculum work in the development model. This model recognizes that creating curriculum guides alone does not enhance student achievement; it is merely the first step. Curriculum work must funnel down to classroom instruction, assessment, and instructional improvement based on data in order to maximize student achievement. As such, the model is focused on the work of Ainsworth, Marzano, Wiggins, and Tomlinson specifically as related to using standards for curriculum development, unit design, lesson design, instruction, differentiated instruction, and assessment (formative and summative). Our current process is indicated below:

- Unpack and prioritize Michigan Department of Education's grade level content standards (i.e., GLCEs and HSCEs).
- Unpack expectations using Ainsworth model of identifying verbs, nouns, concepts, skills, big ideas, essential questions, identify level of Bloom's Taxonomy for each expectation, create assessment items aligned to each prioritized standard
- Prioritize expectations
- Group expectations to create measurement topics
- Create end of course assessments
- Create assessment map
- Chunk
- Create course map and common formative assessments\*
- Train team in data analysis
- Create units of instruction using the Understanding by Design (UbD) model
- Implement, assess, reflect, modify for improvement

\*Common formative assessments are defined as periodic or interim assessments, collaboratively designed by grade-level or course teams of teachers and administered to all students in a grade level or course several times during the quarter, semester, trimester, or entire school year (Ainsworth, 2006).

The process of revising curriculum guides in the district involves teachers and curriculum leaders collaboratively conducting gap analyses using the following approach, in part, outlined by MDE:

- Standards and expectations published by MDE are identified and prioritized.
- Teams review existing documents to 1) determine whether GLCEs or HSCEs are taught in the curriculum and 2) identify the level of proficiency outcomes should be met.
- Pacing guides are reviewed to determine alignment along with corresponding resources.

Guides requiring revisions adhere to the cycle noted under *Process for Curriculum Development*.

All curriculum guides in the district are based on state standards and expectations. Serving as *living documents*, curriculum guides are reviewed annually to ensure alignment to state expectations and to incorporate needed revisions based on student data, research on best practices, and feedback from all stakeholders. In an effort to increase student achievement and effectively implement the curriculum, teachers across content areas engage in ongoing professional development. The sessions are designed to assist teachers in developing their capacity to a) further study and develop strategies to implement the GLCEs and HSCEs, b) use data to drive instruction, and c) identify areas of interest to strengthen classroom instruction. The district offers a variety of professional growth opportunities: differentiated professional development that allows teachers to develop in areas of interest; grade level/department sessions; school and district-wide sessions based on curriculum, data, and school improvement plans; training for group facilitators and content leaders representing their respective buildings; and voluntary after school sessions to further support instruction.

Several data warehousing systems are accessed to plan and evaluate professional development (building and district level), evaluate the impact of curriculum and instruction on student achievement, and support the development of school improvement plans. At the building level, staff members further align classroom instruction based on results from item analyses, disaggregated data based on subgroups, and noted trends over a period of time. At the district level, both aggregate and disaggregated data are used to establish academic goals, identify programming needs, and plan meaningful and relevant professional development.

## **The Foundation of Core Courses**

All core courses (English Language Arts, mathematics, science, and social studies) are based on GLCEs or HSCEs. Students have access to courses across levels with opportunities for differentiated instruction. Resources are aligned to curriculum guides based on state expectations and offer activities to meet diverse learning styles and needs. Classes plan for small and whole group differentiated instruction to ensure that all students have equal and equitable access to appropriate core outcomes. Student data (formative and context-bound) is also used to guide decision making and select appropriate resources. Special education teachers receive core curriculum guides and participate in training to interpret expectations for areas under study. Special education teachers also have the opportunity to work with building teams in identifying best practices for reaching struggling learners. Professional development opportunities with corresponding resources are offered to all teachers in the district

### **Teaching to Expectations (Units of Study)**

Curriculum documents are designed to teach the Michigan Grade Level Content Expectations (GLCEs) to all students. The units of study are divided into three stages based on the genres to be explicitly taught at each grade level. **Stage 1** of each unit identifies the desired results for all students in a specific grade level. Stage 1 specifies what each student should know, understand, and be able to do at the end of the unit. The “desired results” designates the content worthy of understanding, what enduring understandings are desired, and what essential questions will be explored. Stage 1 calls for clarity about the priorities of the unit. **Stage 2** of each unit determines the acceptable evidence from the desired understandings and content of the unit of study. Stage 2 provides diagnostic, formative, and summative assessment to allow educators to know when students have achieved the desired results of the unit. This stage describes the acceptable evidence of a student’s understanding and proficiency. The assessment evidence reflects the desired results of Stage 1. **Stage 3** of each unit is the instructional plan. Stage 3 suggests the activities, sequence, and resources which are best suited to accomplish the goals established in Stage 1. This stage focuses on the knowledge and skills students need to perform effectively to achieve the desired results. The goal is to make teaching engaging and effective for learners, while always keeping the end in mind.

### **English Language Arts**

The kindergarten through third grade curriculum writing teams drafted reading guides winter 2009. All elementary teachers received draft guides and professional development fall 2009 and 2010. Full implementation of guides in classrooms is scheduled fall 2010.

In the area of writing at the elementary level, teams will assemble during the 2009-2010 school year to review resources. The outcome of the review will drive development of K-5 writing curriculum guides during 2010-2011 with full implementation and professional development in 2011-2012. Serving as living documents, writing teams will review guides yearly to a) incorporate diagnostic assessments, b) adjust expectations for learning experiences based on data, c) include scaffolding and reference materials, and d) strengthen units of study. At the secondary level, teams assembled fall 2009 to review resources and write guides for targeted courses. English curriculum guides drafted in 2007-2008 were scheduled for full implementation during 2009-2010 or 2010-2011. Professional development activities occurred fall 2009 and will in fall 2010. Plans to conduct resource audits for specific elective English courses will occur during 2011-2012 with possible adoption recommendations and curriculum development work in 2012-2013.

### **Woodward**

Students will be selected for intervention programs though data collected by classroom teachers, data from Reading Recovery, School Psychologist, MiBLSI Assistants, and Special Education Teachers in the building. Student performance and achievement will be reviewed weekly through grade level meetings. Teachers will use Progress Monitoring Data along with anecdotal records, work sampling, and student performance assessments to create flexible groupings for literacy interventions. Hourly tutors will be specifically trained by District Literacy Coach, School Psychologist and Title I Reading/Math Integration Specialist to provide targeted literacy interventions. Students who are intensive will be referred to a Family Support Team Meeting. Kalamazoo College students will be used in the after school tutoring program to provide one-on-one targeted interventions for our most at-risk population of African American and Economically Disadvantaged students.

### **Math**

A representative group of elementary teachers assembled in fall 2008 to explore options for new resources aligned with state expectations and based on best practices for grades K-5. Following the scheduled resource pilot in January 2009, mathematics leadership team members will identify and recommended a new series in March 2009. Professional development activities were scheduled for late summer and fall 2009 that provided assistance to classroom teachers with using guides and new textbook series to teach grade-level content expectations. During 2008-2010, the curriculum writing team, along with classroom teachers, convened periodically to report on the quality of guides and offered recommendations for improvement. The implementation began in fall 2009 and will be provided with ongoing opportunities for improving guide components and professional development.

With respect to middle school mathematics, the leadership team will review resources during 2009-2010 to investigate quality, relevance in meeting state expectations, and unification of format and content with the K-5 program. Based on findings, the adoption and curriculum development process may occur in 2010-2011 with scheduled professional development in fall 2011. In the meantime, to focus instruction on grade-level content expectations and support instructional practices, mathematics writing teams will assemble in winter 2009 to strengthen currently used guides. In winter 2009, high school curriculum writing teams collaborated with teachers to complete guides drafted during 2007-2008. In fall 2009, teachers received drafts guides and are expected to fully implement the program during 2009-2010. Plans to conduct resource audits for specific elective courses will occur 2010-2011. Revisions in state course expectations will direct future curriculum writing efforts during 2010-2011 and 2011-2012

### **Woodward**

Students will be selected for intervention programs though data collected by classroom teachers, School Psychologist, and Special Education Teachers in the building. Student performance and achievement will be reviewed weekly through grade level meetings. Teachers will use anecdotal records, work sampling, and student performance assessments to create appropriate math instruction groups. Students who are intensive will be referred to a Family Support Team Meeting. Kalamazoo College students will be used in the after school tutoring program to provide one-on-one targeted interventions for our most at-risk population of African American and Economically Disadvantaged students.

## **Science**

During the 2007-2008, the district adopted a K-6 science program developed by Battle Creek Area Mathematics and Science Center (BCAMSC) in Battle Creek, Michigan. BCAMSC curriculum guides contain instructional units aligned with grade level content expectations for life, earth, and physical science strands. On a yearly basis, BCAMSC provides teachers with updated unit activities and curriculum guides (components), includes resources to address realignment needs indicated by MDE, and offers professional development. Over the past two years, the district has phased in units by specific grade levels. In accordance with the final phase of implementation plan, 3rd through 6th grade teacher received the newly realigned science units with curriculum guides and training in fall 2009. consistent with the elementary direction and based on the results of an resource audit conducted in 2007, the science leadership teams will consider piloting BCAMSC units along with other resource options for 7th and 8th grades in spring 2010. Upon approval, the leadership team will deliver professional development sessions during 2010-2011. In the meantime, the 7th grade curriculum writing team assembled in winter 2009 to draft pacing guides and identify supplementary materials for use in fall 2009. Similarly, the 8th grade curriculum writing team assembled in winter 2009 to continue writing pacing guides previously drafted in 2007-2008. Seventh and eighth grade teachers received draft pacing guides in fall 2009 with supporting professional development. Full implementation of the 7th and 8th grade science curriculum guides will occur 2010-2011.

In 2010-2011, curriculum writing teams will implement secondary science guides drafted during 2008-20-9. Curriculum teams worked during the summer in writing these guides to provide teachers with drafts and professional development in the fall 2009. Teachers will fully implement revised guides in 2011 with opportunities for improving guide components and professional development. Curriculum writing teams will assemble during 2009-2010 and 2010-2011 to investigate alignment between high school content expectations and currently used textbooks in honors and elective courses. Based on findings, recommendations for adoptions and the subsequent revision of curriculum guides will occur in winter 2010 with professional development during 2010-2011.

## **Woodward**

Students will be selected for science intervention programs though data collected by classroom teachers, School Psychologist, and Special Education Teachers in the building. Student performance and achievement will be reviewed weekly through grade level meetings. Teachers will use anecdotal records, work sampling, and student performance assessments to create appropriate science and social studies interventions. Students who are intensive will be referred to a Family Support Team Meeting.

## **Social Studies**

To address MDE revisions at the elementary level curriculum writing teams conducted K-5 resource audits to ensure alignment to the grade level content expectations. Teachers will receive draft guides in fall 2010 with supporting professional development. Full implementation of guides is expected fall 2011. At the middle school level, 6th grade recently underwent a textbook adoption and as a result, curriculum writing teams assembled draft curriculum guides that provide direction in implementing the newly adopted series in the fall of 2009. Teachers engaged in professional development in fall 2009 and will continue the work during the year. Full implementation of the revised guide is scheduled fall 2010.

During 2009-10, the middle school social studies curriculum writing team will review grade level content expectations and resources to determine cohesiveness of the 6th and 7th grade courses. Recommendations to shift or redistribute partial content in 7th grade to 6th may occur based on breadth of current MDE social studies topics. This decision will assist with ensuring vertical articulation between courses. Based on resource needs, the curriculum writing team may recommend an adoption during 2009-2010. The 7th grade curriculum writing team will continue drafting curriculum pacing guides during 2009-2010 with full implementation in 2011. In 8th grade, a textbook adoption committee convened in 2007-2008 to conduct a resource audit and pilot selected resources. As a result of the pilot, committee members recommended a new textbook series for adoption in winter 2010. In the meantime, the curriculum writing team will complete 8th grade previously drafted in 2008-2009. Teachers received draft guides in fall 2009 with scheduled professional development. Full implementation of the 8th grade guides with new resources is scheduled 2011.

High school social studies curriculum guides drafted in 2007-2008 are scheduled for full implementation in 2010-2011. To meet timelines, curriculum teams have assembled this year to continue writing guides. Several of these guides will undergo major revisions due to new MDE high school content expectations. Teachers received draft guides in fall 2009 along with professional development. With respect to elective courses, curriculum writing teams will conduct resource audits during 2010-2011 and 2011-2012. Curriculum writing teams may offer recommendations for adoptions based on findings. Writing teams will complete related work with developing curriculum guides between 2011-2012 and 2012-2013.

## **Variations**

All schools use Kalamazoo Public School's curriculum guides that are aligned to MDE expectations and standards. Magnet schools and schools with special themes integrate their specialized areas into the KPS curriculum.
